

Swivel stool

The essence of a swivel stool has always been flexibility and functionality. Never in the foreground, but always a useful helper. We craft our swivel stool traditionally, with wood, steel and brass, and we keep its functional parts visible. Thanks to the ergonomically shaped top and the bottom of the seat, the stool comfortably lies in your hand when you swivel it up or down and serves as an inviting hand-soother during intense thinking sessions. This turns the reliable work aid into a versatile piece of furniture.

Seats in two versions: Solid wood or solid wood with leather upholstery.

Seat height low: 440 - approx. 550 mm

Seat height high: 560 - approx. 670 mm

Stool high, seat wood: € 464,40

Stool high, seat wood/leather: € 518,40

Stool low, seat wood: € 450,00

Stool low, seat wood/leather: € 504,00
